drawing-tool-v2-production.up.railway.app

What should I draw for you today?

This typeface inside the prompt box should go back to being the original Martina Plantjin please.
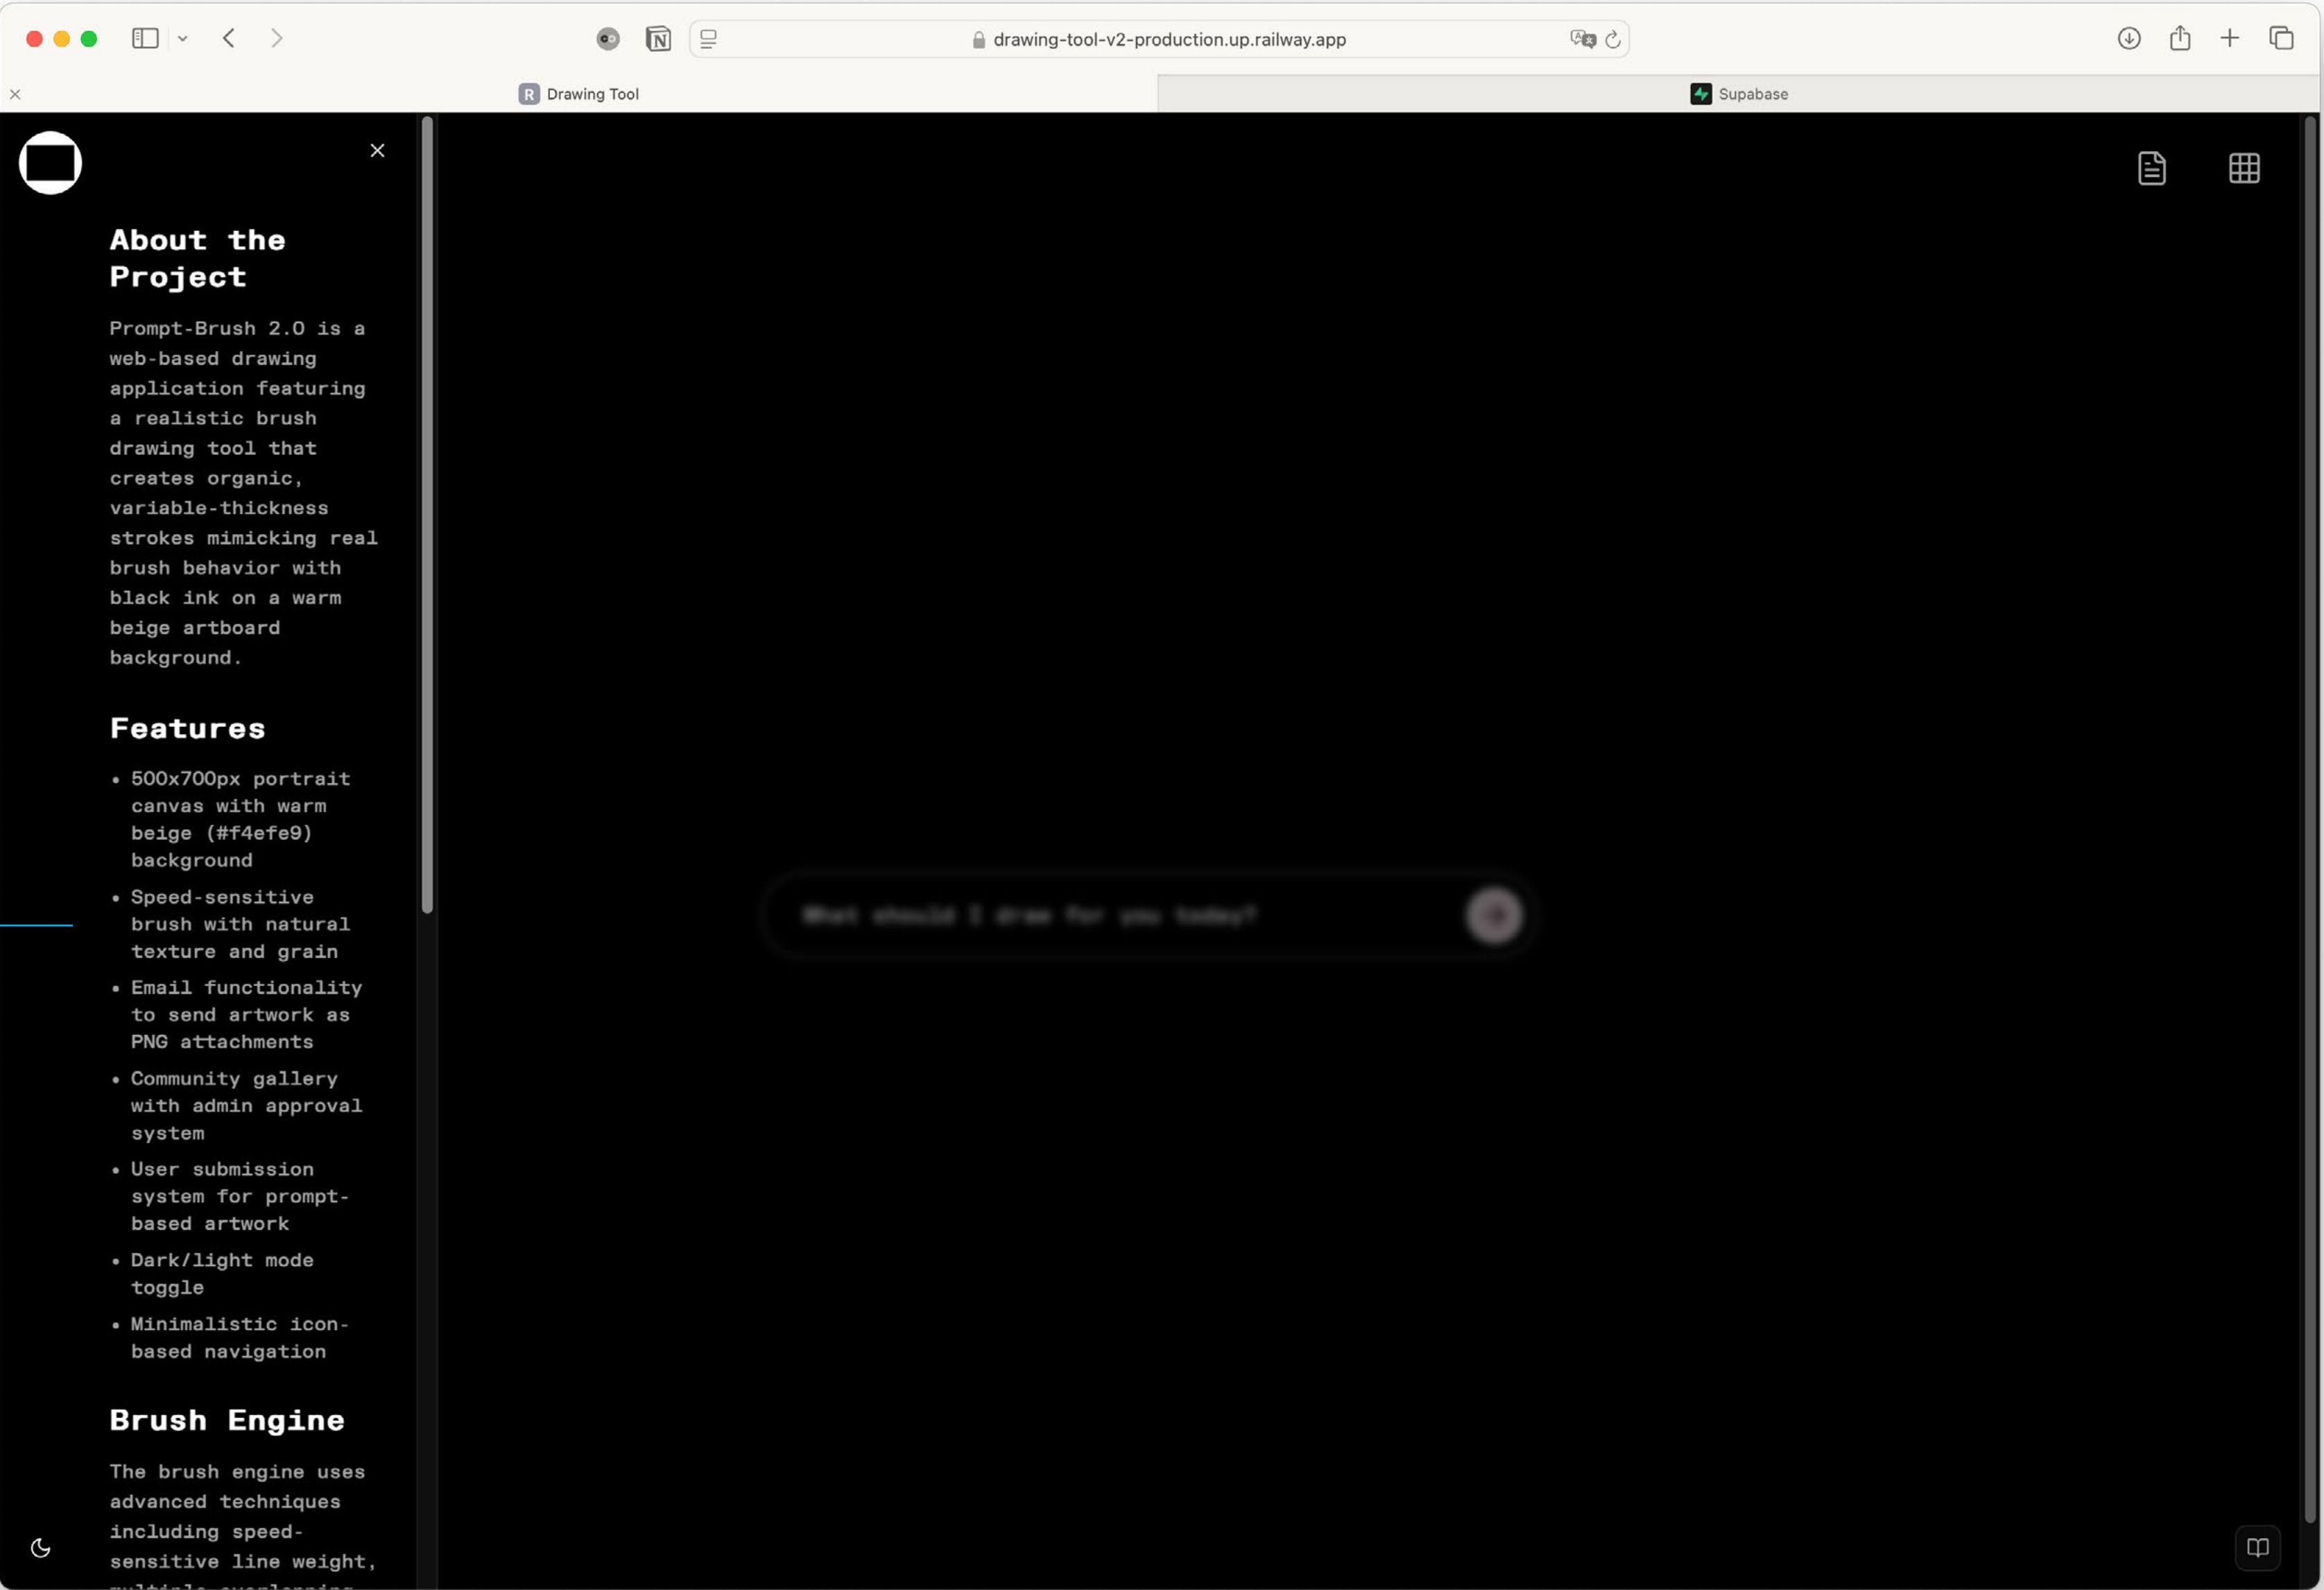

can the text box be centered on the screen? right now it looks too low.
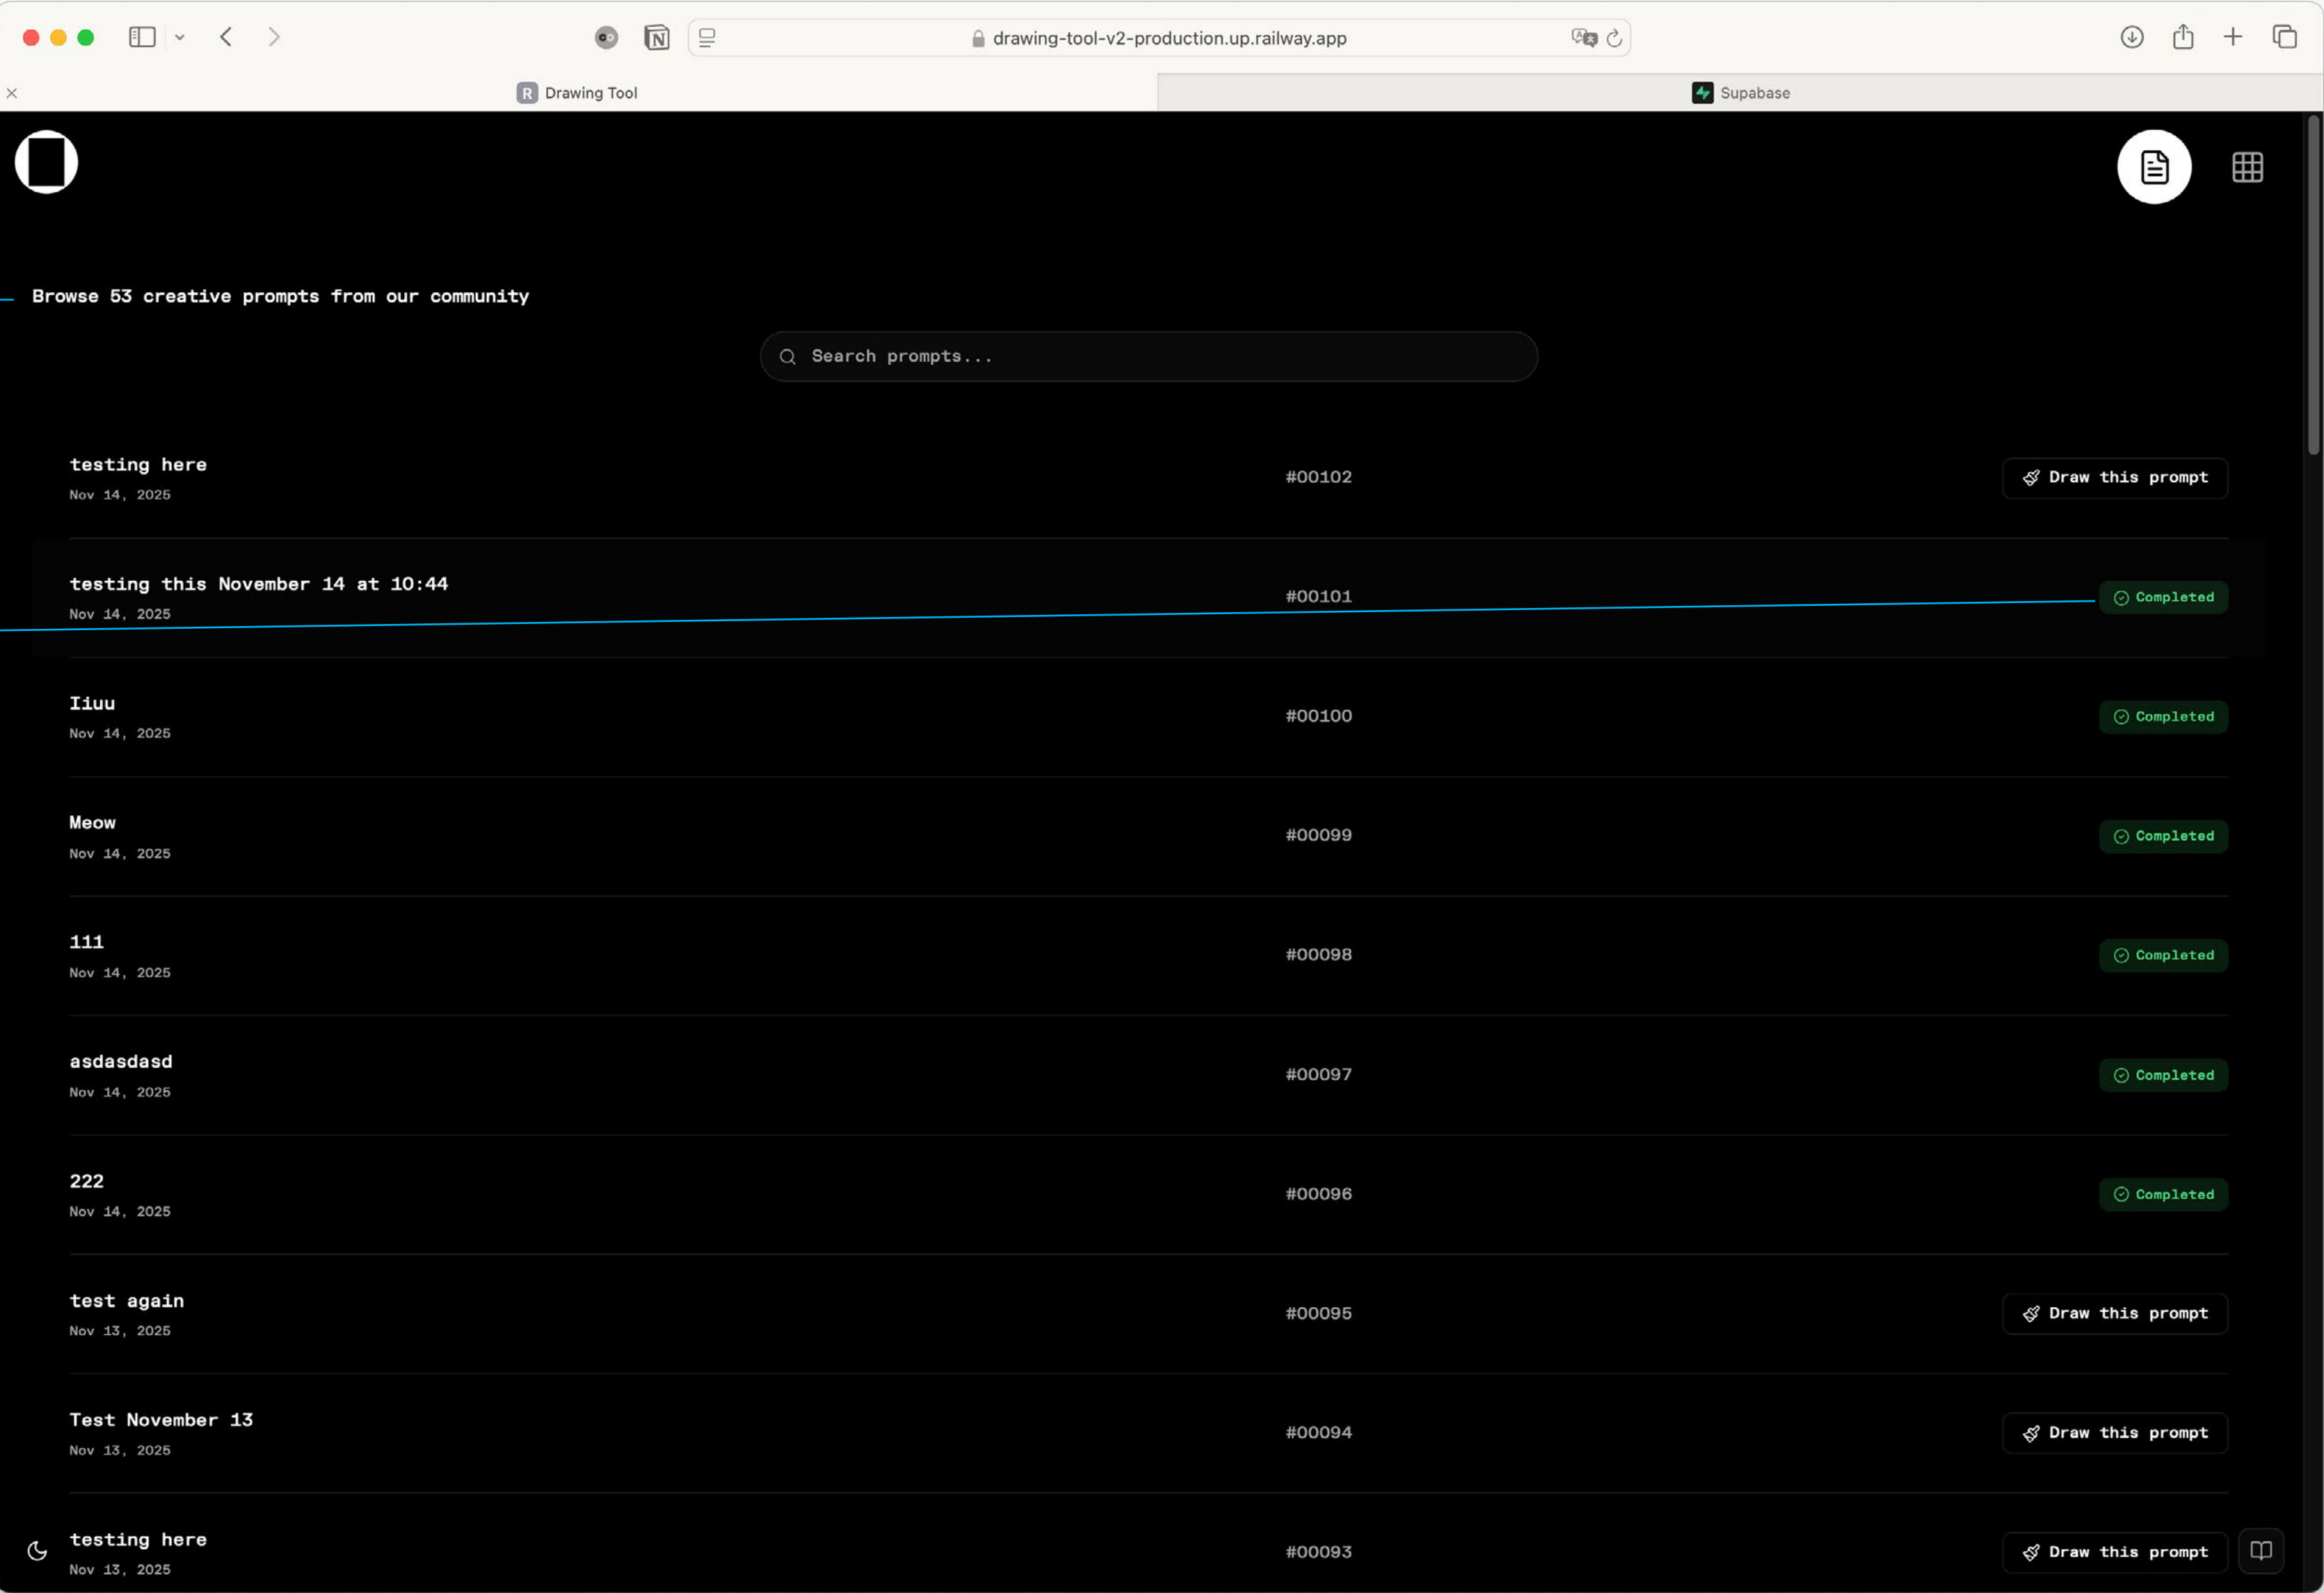

can we remove the scroll down funciton from the homepage?

please make the buttons at the bottom the same size as the ones at the top right

please make the buttons at the bottom the same size as the ones at the top right. and make them inside a circle on hover instead of

Drawing Tool

About the Project

Prompt-Brush 2.0 is a web-based drawing application featuring a realistic brush drawing tool that creates organic, variable-thickness strokes mimicking real brush behavior with black ink on a warm beige artboard background.

Features

- 500x700px portrait canvas with warm beige (#f4efe9) background
- Speed-sensitive brush with natural texture and grain
- Email functionality to send artwork as PNG attachments
- Community gallery with admin approval system
- User submission system for prompt-based artwork
- Dark/light mode toggle
- Minimalistic icon-based navigation

Brush Engine

The brush engine uses advanced techniques including speed-sensitive line weight, multiple overlapping

What should I draw for you today?

All this text should be the Martina Plantjin in the same size for the headers as well as the paragraphs.. Can we make the pannel slightly wider so that the paragraphs don't feel so tight?
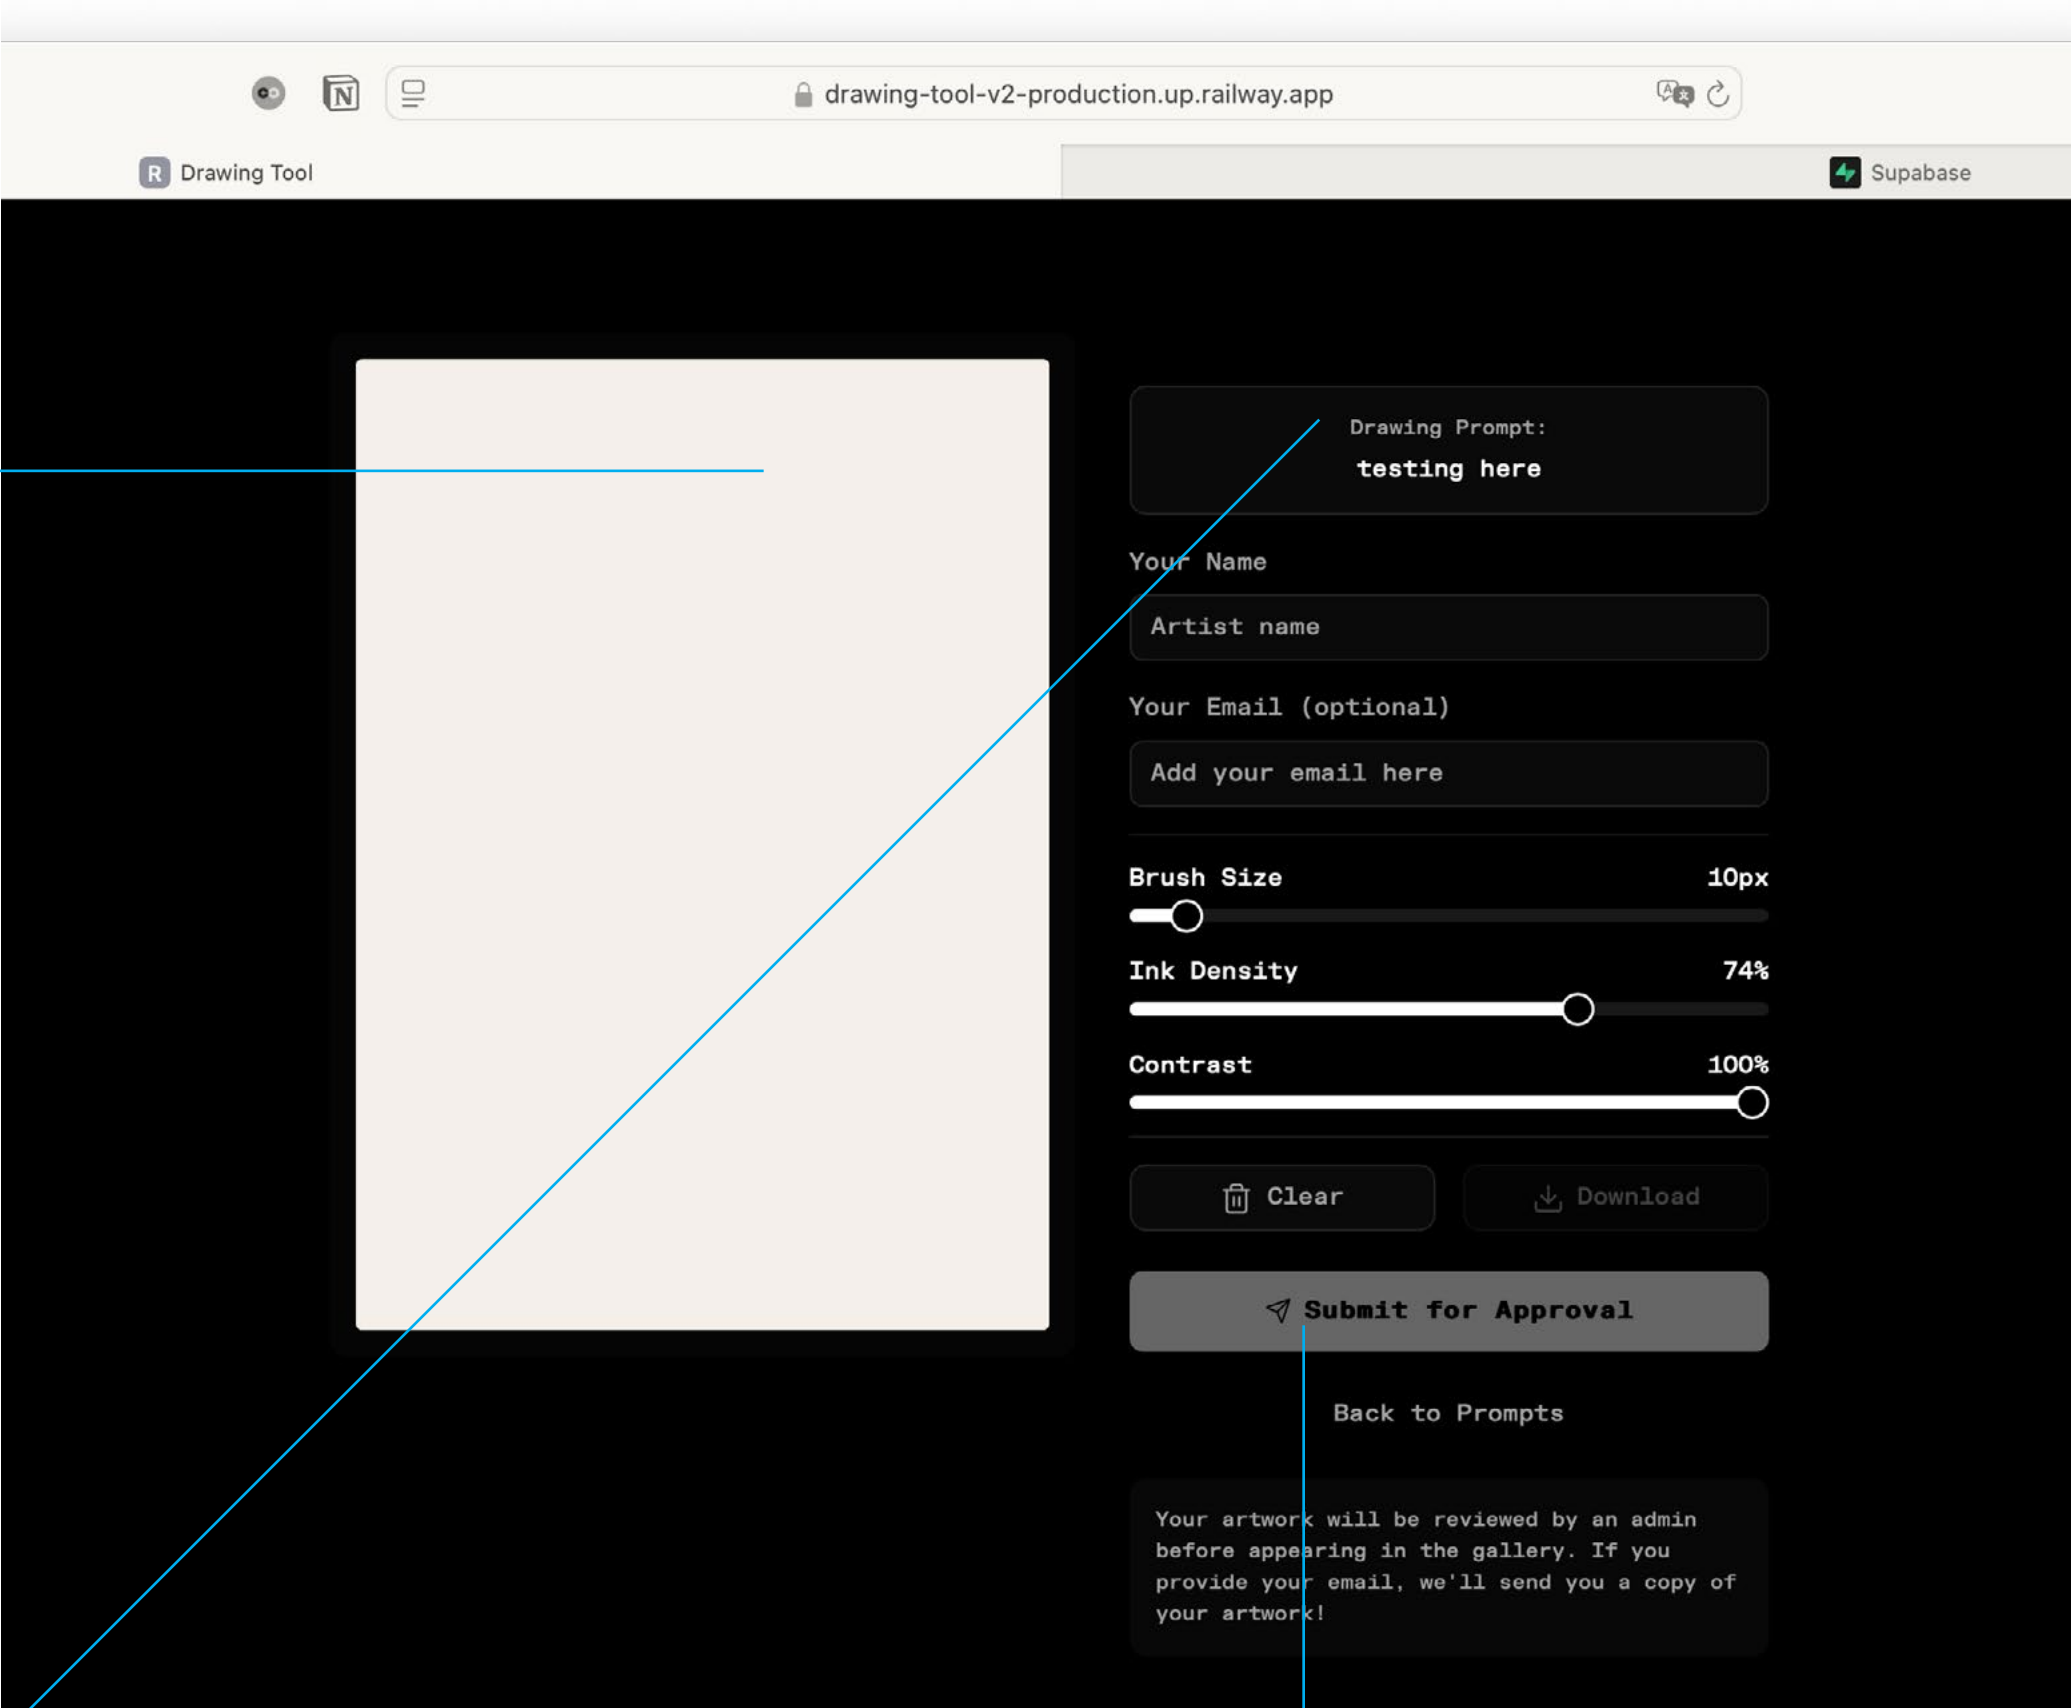

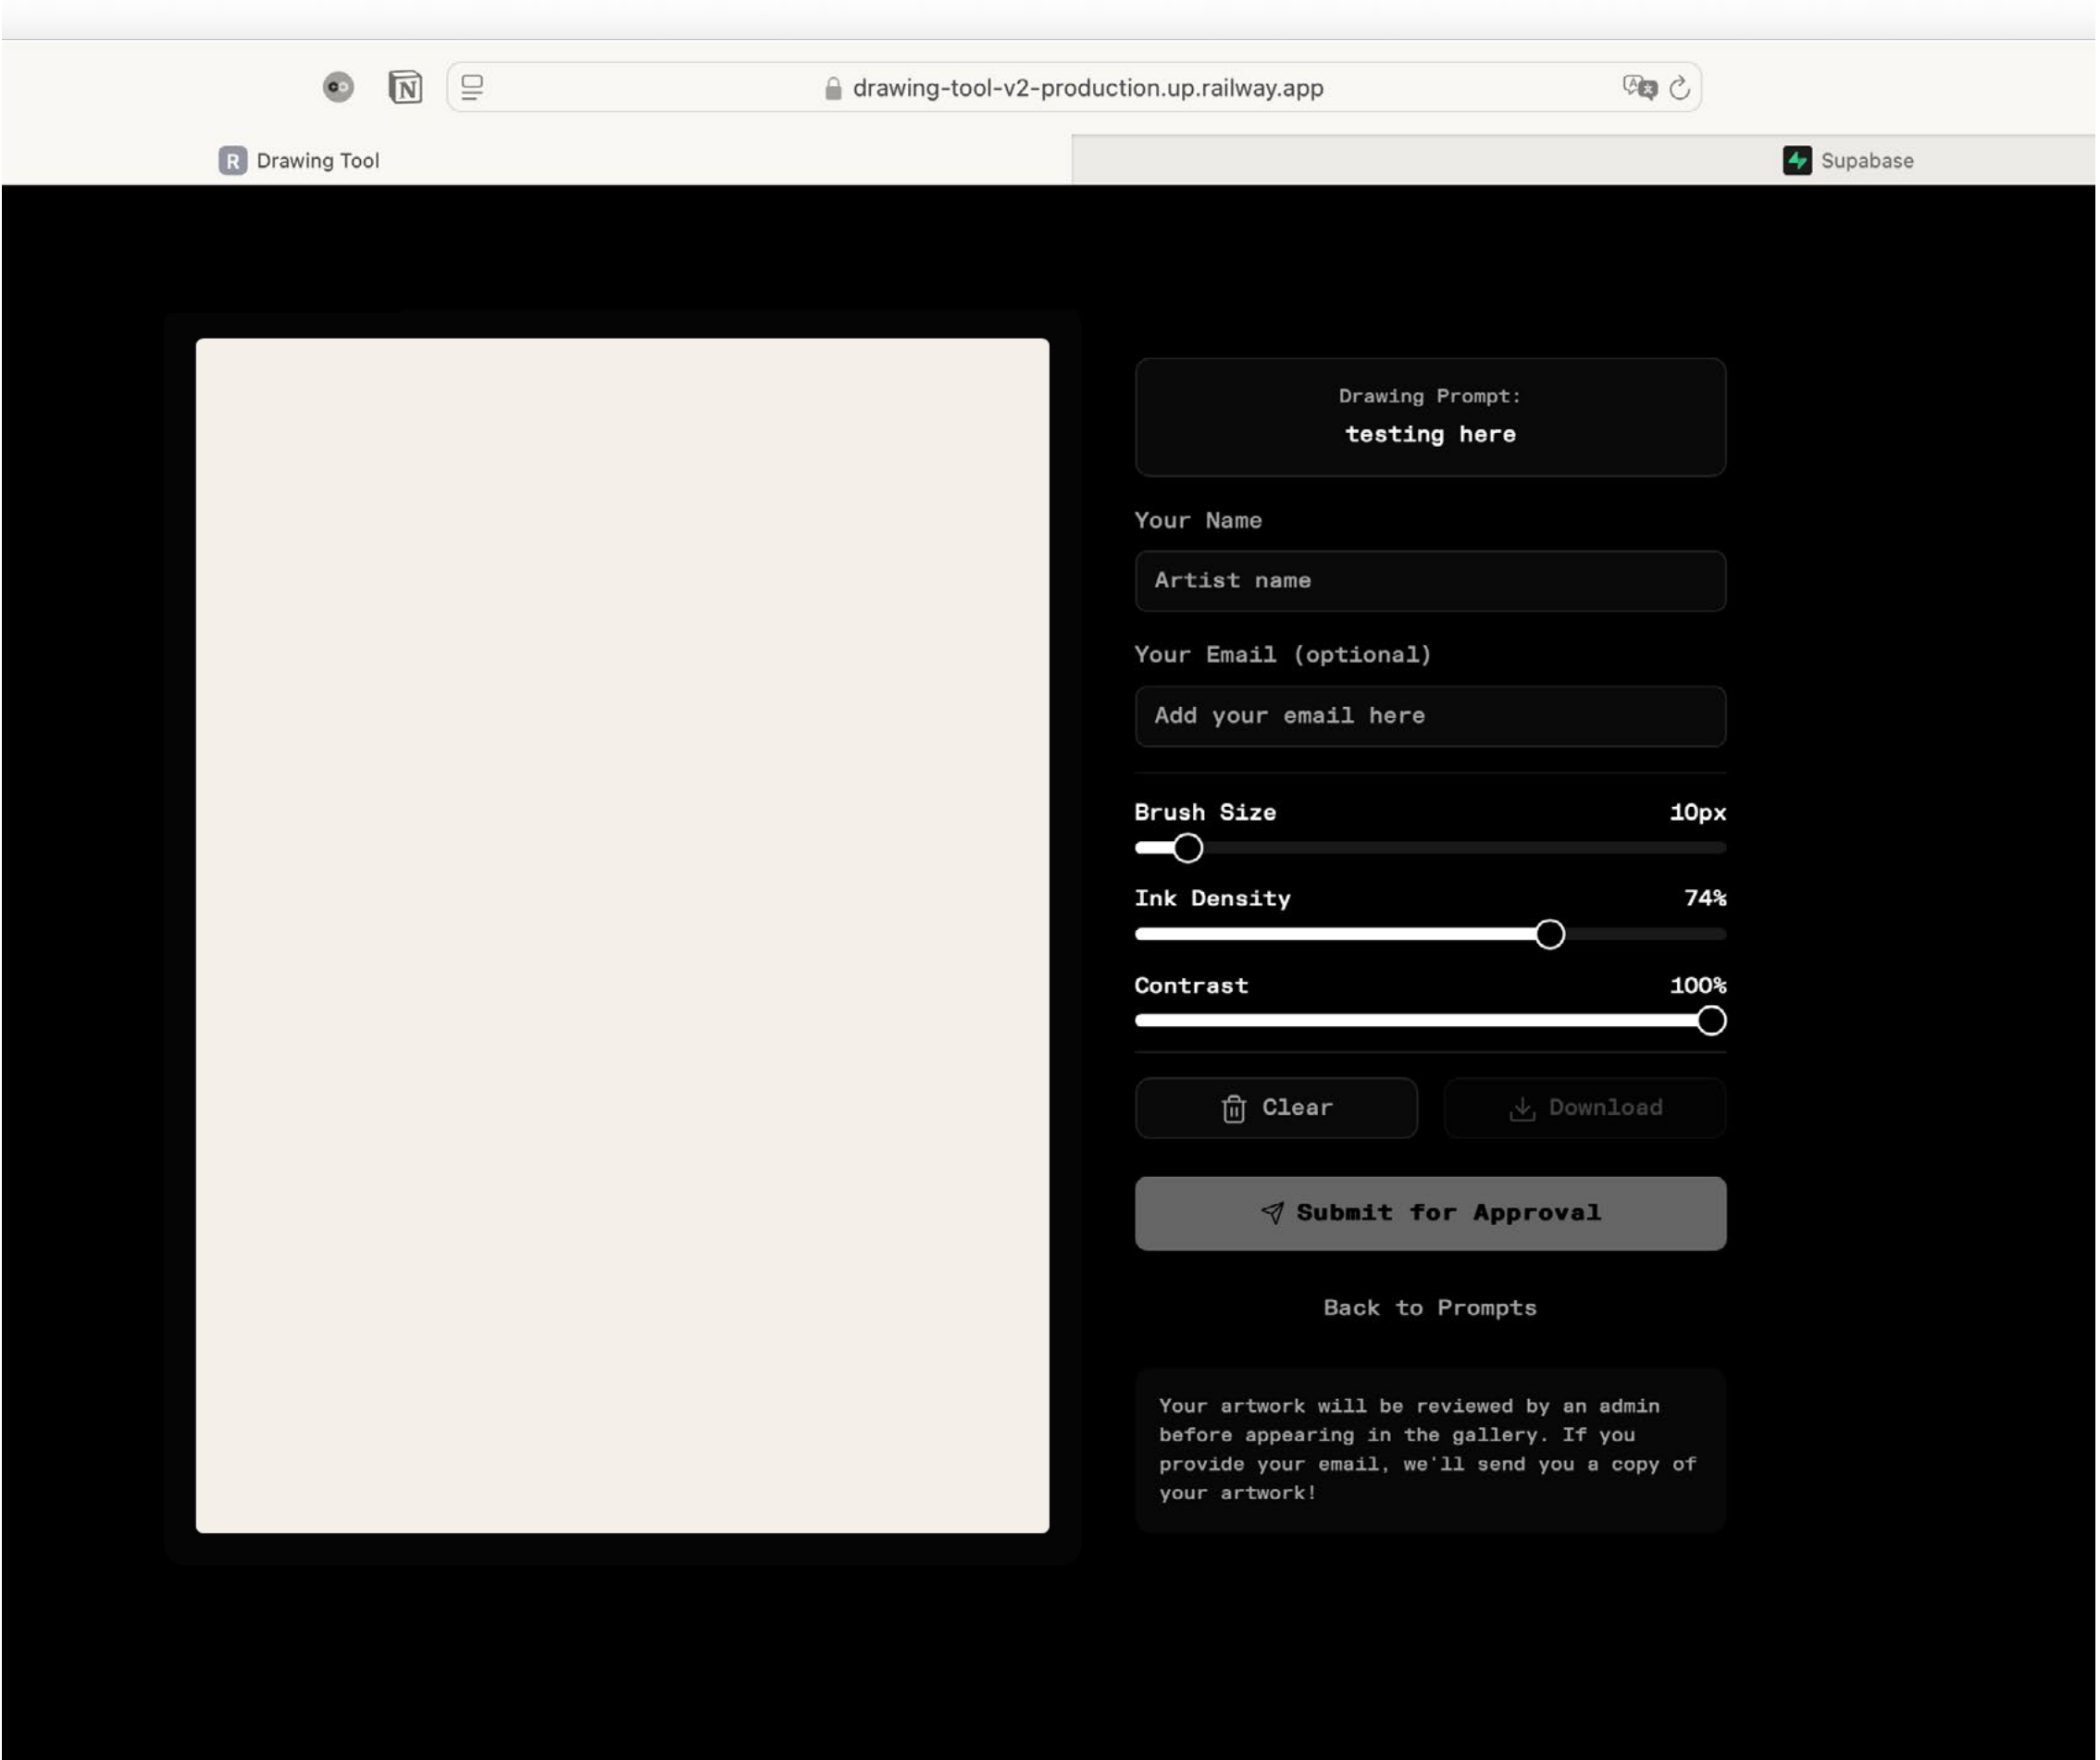

remove this text please.
